Catch the next train to adventure with the Galaxy Express! The adorable train-themed play structure is designed for toddlers making it an excellent place for them to begin making friends and trying new games. The “car” of the engine features a steering wheel for children to guide the train away with their imagination. There is a Big Dipper themed cutout on the roof. At the front of the engine is a tunnel that leads to the very front. The front of the engine features two pull-up bar panels for children to work on their core strength. Children can gently walk out the front on the Tot Scrambler Panel.
