The Step Activity Center is a wonderful play structure for toddlers. It has easy steps which their young legs can climb with ease, along with plenty of hand grips which they can use to steady themselves. It has delightful activities on both sides, including a set of colorful spinning shapes. Children will enjoy learning about shapes as they twirl them around. It is made from durable materials that are designed to withstand all sorts of outdoor weather conditions at any time of the year. It also has a large number of customizable color options allowing you to match it with any existing play structures in your area.
