- Fits snugly against vertical walls
- Rounded shape allows for a fuller look
- One-foot height allows for children to plant in it
- Uses recycled plastic making it an environmentally friendly option

Assembled Dimensions: 24" (diameter) x 12"

The best way to spruce up your outdoor area is to add some gorgeous greenery. With the Half Moon Planter by Nature of Early Play you can decorate your space with gorgeous flowers and plants along the side of your building or fence. This planter is literally half the size as traditional planters which makes them a compact option that will take up less space in your garden area. The planter's unique shape makes it easy to install anywhere and use in garden designs alongside other planters. This item has a diameter of 24-inches and a height of 12-inches, allowing plenty of space for the plant's roots to grow to a healthy depth, without taking up much space in the garden. It is also half the size of the Round Planter, also by Nature of Early Play. It does not have a bottom, making it lightweight and easy to install.
