

Trike Garage

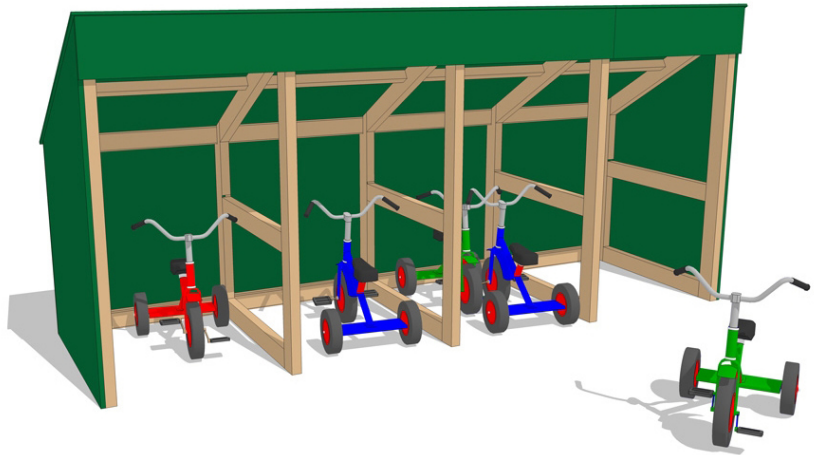

MSRP \$4,263.00

SALE \$3,837.00

Highlights:

- Slanted roof that allows rain to runoff
- Sturdy supports between each bay
- Appropriate height for children to store trikes
- Open front allows easy access

Age Group: 6 months to 5 years

The Trike Garage is a perfect outdoor storage area for trikes, toys, or anything else that you want to protect from the weather. When it is empty, kids may even use it as an imaginary clubhouse or stable for ponies. The sturdy, sloped, and waterproof roof keeps out all water from rain, and is even difficult for snow to build up on. Best of all, the framework of the structure is made from durable recycled plastic, rather than wood, which would begin to rot away after only a few years. The garage has three separate bays, allowing at least three tricycles to comfortably fit inside with leftover space.
