**Age Group:** 6 months to 5 years

---

The road may be long and winding, but trikers will learn many safe skills with our Trike Traffic Signs. These traffic signs each teach a different important skill. The yield sign, red and white, teaches children to slow down. The Speed Limit sign shows what speed to stick to. The two bright yellow and blue signs show how to respect crossings. The blue and white handicap sign is a perfect copy of the ones they'll see in their daily life. The iconic stop sign is clear and simple. The final sign, is the recycle here sign which teaches environmental stewardship. It's beneficial to teach children socially-conscious behaviors early on, so that they become ingrained, lifelong, positive habits.
