Age Group: 6 months to 5 years

The best kind of playtime activity for children is one which expands their minds and encourages them to think creatively. Paint Panels are the perfect way to encourage kids to explore art in a way they haven't tried before. The transparent canvas allows kids to paint on both sides, cooperatively creating unique masterpieces that look different depending on which side they are viewed from. The panel has five cup holders on each side, which can be used to hold cups of different colored paint. In-ground mounting can be used to permanently install the panel outside, or a portable mount can be used to give you the option of outdoor or indoor.
