

Toll Booth

MSRP \$1,256.00

SALE \$1,100.00

Highlights:

- Adorable Toll Booth station
- Has a "Stop" sign on the front
- Fertile area for children to engage in pretend
- Available in two, four, and six post versions

Age Group: 6 months to 5 years

The Toll Booth makes a great addition to any tricycle track or play area with a road theme. Kids can stand behind it and charge their friends imaginary 'tolls' as they 'drive' past. These tolls can be paid in the form of anything from pine cones, to bottle caps, or any other kid currency. This will undoubtedly lead to some humorous situations while encouraging them to play together. It is available in three different sizes. The smallest has two posts with a Half Village roof and a Store Panel with the toll booth graphic. The medium four-post model has the same storefront with a full Village Roof as well as a Bench Panel. The largest six-post model has all of that, with an Island Roof plus an additional panel of your choosing.
