Assembled Dimensions: 50" x 50" x 61"

Transform your playground into a haven for butterflies, vegetation, and other wildlife with this gorgeous Garden Roof House. Both functional and ecologically-sound, the Garden Roof House shades children in a canopy of seasonal produce, pollinator flowers, and perennials. Add the Modboxes below for even more growing space, and engage children in interactive gardening lessons. The Garden Roof House's presence in any park, farmers market, or schoolyard helps reduce runoff, as well as decrease soil erosion and water pollution. Made from 100% recycled structural plastic, it's the perfect accessory to teach children about sustainability, self-sufficiency, and responsible environmental citizenship. It measures 50" L x 50" W x 61" H and is ADA accessible.
