The Vine House is a perfect contemplative spot which can be covered in any kind of ivy. This four foot tall arching structure serves as the scaffolding for leafy or flowering plants, creating a spot where one can go to literally be surrounded by nature. Because of its size it is best suited for children, who often don't get contemplative spots like this to read or think. Either way, it makes a beautiful addition to any garden or decorated outdoor area. It can also be ordered with optional Modboxes on both sides, which can be used to grow additional flowers. In terms of size, this unit is 48" x 48" x 48".
