- Whimsical handmade look
- Complete with modboxes under the windows and a bench

**Age Group:** 6 months to 5 years

Give preschool aged children the perfect hideout with this Wee Tots Clubhouse. This awesome clubhouse has a rustic visual theme that makes it look homemade. The roof appears to be made from individual shingles, and the door and windows appear to be made from real wooden planks. However the roof and the entire structure of the clubhouse are made from 100% recycled post-consumer plastic materials. It has large windows on three sides, which let in plenty of sunlight, let the kids inside keep an eye on their surroundings, and make the clubhouse more welcoming to everyone.
