Complete your child's miniature kitchen set with this carefully-designed, lifelike play refrigerator. Made from 100% recycled structural plastic, this faux refrigerator's body is composed of plastic in natural shades, with royal blue accents adding arresting pops of color. The fridge features four shelves and polycarbonate inset windows, specifically designed for small fingers. Plus, when it's not being used to hold replicas of food, it can be used for additional storage space. The refrigerator coordinates with other pieces in our kitchen set, including the Stove and Microwave. This playtime accessory, like our other kitchen items, is ADA accessible, making it ideal for any classroom or child's playroom.
