With its scalloped roof, impressive surface area, and charming forest green accents that double as seating areas, our Sand House gives kids a safe space to create sandcastles in the shade—all day long! Carefully constructed using 100% Recycled Structural Plastic, the pavilion makes a great meeting space for kids to hone fine motor skills, collaborate, and practice sharing. The Sand House fits our matching cover, sold separately, constructed with a heavy-duty outdoor material designed to keep your playscape free from animal debris, pesky pests, and other contaminants. Crafted from mesh, it allows for perfect water drainage. The Sand House features stainless steel hardware, is ADA accessible, and has a 2 x 12 frame with a 12" depth for sand and toys.
