- Adds to any play area

**Age Group:** 6 months to 5 years

**Assembled Dimensions:** 4" x 31" x 24-36"

If you can't defy gravity, use it to your advantage with the Sand Chute Wall. Children will grin from ear-to-ear as they pour water, sand, pebbles, marbles, and small spherical objects into the top, only to watch them bounce through a course of consecutive chutes. Perfect for artistic kids and "little builders" alike, the Sand Chute Wall has something for every child, regardless of age or ability level, and is ADA accessible. This play accessory pairs well with our Sand Ramp Wall, as well as our slew of sandboxes and Sand Huts. Purchase individually or attach it to the Sand Ramp. Its panels are 24"W x 16"H (not including posts). The overall height is adjustable from 24"-36"H.
