Now kids can write, draw, and solve simple math problems to their heart's content outside with our Outdoor Magnetic Chalkboard! With a surface composed of SureGrip™ coated steel, this chalkboard is multifaceted, meaning you can post drawings, magnetically display exciting nature finds like flower petals and leaves, and embellish your collection with a flurry of chalk masterpieces. The chalkboard's SureGrip™ coating is vandal resistant and sustainable, protecting against scratching and etching; plus, it cleans efficiently using just water, so it's eco-friendly. And a chalk tray on each side of the four-foot panel holds supplies. The board is durable and customizable in an array of eye-catching colors. Choose between our different panel configurations: Single, Double, Triple (T-configuration or Zig-Zag) and Quadra. This product is ADA accessible, meaning children of all abilities can join in the arts and crafts fun, and it features stainless steel hardware.
