Age Group: 6 months to 5 years

Enjoy double the creative, magnetic fun with the Double Outdoor Magnetic Chalkboard. Featuring a surface made from SureGrip™ coated steel, this chalkboard is the perfect place for multimedia fun. Plus, its dual panels make it an ideal, space-saving creative “corner” for your play area. The Double Outdoor Magnetic Chalkboard's SureGrip™ coating is vandal resistant and long-lasting and designed to protect against scratching and etching; it also wipes off easily with water, making it environmentally-friendly. Customize your board in the color of your choice: red, yellow, blue, green, tan, black, and white. And store chalk and supplies in the four-foot panel. If you are looking for more mobility or space, you can choose between our in-ground version and our portable model (which includes base plates), and different panel configurations: Single, Double, Triple (T-configuration or Zig-Zag) and Quadra. Shown here is the Double panel. Our chalkboard “corner” is ADA accessible and includes stainless steel hardware.
