

## Storage Shed

**MSRP \$19,305.00**

**SALE \$17,374.00**

### Highlights:

- Clear panels to look through
- Available in a wood or RSP frame
- Double doors to allow a wider entrance
- Sturdy structure to store outdoor equipment in

This RSP Storage Shed by Nature of Early Play is a reliable and affordable unit for keeping anything you might need safe and out of the elements. There are several different sizes available, so that you can be certain that you're getting the perfect shed for your available space, budget, and storage needs. The shed has a classic design that looks great alongside any building or home. Its heavy-duty recycled plastic paneling is durable and weather-resistant. The structure has two non-opening windows in the front, but it can also be installed with additional side windows with your preference. It also has optional shelving and a double primed door that is painted after install. The shed must have a base of asphalt or concrete to be installed properly. Choose a frame material between wood and recycled material and size.
