Age Group: 2 to 5 years

Make sure your eating area is safe and inclusive with the ADA Picnic Table by Nature of Early Play for preschoolers and toddlers. Our tables seat eight to ten children comfortably, at age-appropriate heights of 16-inches for toddlers, or 20-inches for elementary-school kids. The unique feature of this picnic table is the elevated plank on one side of the table. This plank is to give persons with wheelchairs easier access to the table, allowing them to be included in the fun. To accommodate different spatial requirements, the picnic table is available in two lengths: 48-inches or 60-inches. Constructed out of 100% recycled structural plastic, and featuring stainless steel hardware, these tables are highly weatherproof, making them built for durability. The Recycled Plastic materials allow you to use heavy-duty cleaners without compromising the table's brown and tan finish.
