This Police Station is a great imaginary playset that works perfectly on its own or as an addition to other occupational play structures to create a whole town of different activities. The familiar theme of the Police Station helps kids to play together and use their imaginations. It comes in small, medium, and large sizes, with two posts, four posts, and six posts respectively. All three sizes come with the Storefront Panel with a graphic showing a friendly waving police officer, and a roof. The four-post and six-post models have a Bench Panel and vertical posts that resemble bars. With the six-post model, you also get an additional panel of your choice.
