

Save-A-Leg Home Plate

MSRP \$39.00

SALE \$24.00

Highlights:

- Durable for outdoor use
- Beveled edge gives players a clean slide in
- Clean black and white
- Secures nicely to the ground

There's no place like home (plate). This Save-A-Leg Home Plate is designed to be one of the best home plates available. It has beveled, rather than straight, edges to make sure that none of the players trip over home plate, which would be really, really embarrassing. It has a molded rubber base which makes it soft, but also easy to clean off and resistant to all kinds of weather. The plate comes with five metal five metal spikes so that you can firmly secure each of its corners to the ground. This way it won't get moved even when players dramatically slide into it.
