With the Garden Bed by Big Toys, kids can get their first test of their green thumbs. They will delight in planting a garden and watching love begin to grow almost before their eyes. The Garden Bed is simple, elegant and straightforward, so that even those young preschoolers will understand the concept and be able to engage with it in meaningful, educational ways. Watch as children connect with nature through weeding, trimming, and planning their beds of herbs, vegetables, and perennials. Whether they want some pretty flowers or a bed of carrots to feed the classroom rabbit, the Garden Bed offers tons of opportunity to explore and engage with the world through a simple child's garden. The Garden Bed provides a space for children to discover, learn, and explore, and offers countless hours of merriment for the young and young at heart. The Garden Bed also provides a stellar educational tool for teachers hoping to teach students about our ecosystem, environmental sustainability, and personal agriculture. The garden bed features a simple wood frame and is deep enough for plants to grow and spread their roots.
