Age Group: 2 to 5 years

Footprint: 5' 7" L x 6' 9" W

Double your marine-time fun and invest in hours of splashy celebration with the Double Waterway. Thanks to the structure's two and three-tiered channels, water cascades from one level to the next, creating a waterfall that kids will enjoy manipulating and harnessing. Children will delight in building dams, pouring water, mixing materials, and floating leaves and twigs downstream. The removable barriers allow children to create unique waterscapes, while the playset's raised platform provides users with a space to connect a garden hose, creating a faucet and steady flow of water to fill the Waterway. This playset is ideal for children ages two to five and makes a smashing addition to your school or care center.
