Unit Size: 8' 6" L x 8' 6" W

Ride a bike or walk underneath a gorgeous and shady canopy with the Big Toys Pass Through Arbor. This attractive playground accessory is an ideal way to add a little charm to your playspace. Not only does it add a natural way to improve the look of your walkway, it comes with benches on both sides, so the little guys can take a seat and enjoy the day after they tucker themselves out running about. The arbor is large enough to arch over a sidewalk or to stand alone in a backyard or playground, giving you a lot of options for how you employ this item. The Pass Through Arbor also makes for a fantastic trellis upon which to grow beautiful vines and flowering climbing plants. Finally, the structure is ADA accessible, allowing all kids and adults to enjoy it. We also offer Big Toys' Three Sided Arbor as a play option.
