Fuel up your imaginary car with the charming and interactive Dual Gas Pump Station. Kids will have a blast pretending to be gas attendants, tending to their invisible convertibles and delivery trucks. Boasting a hunter green background and featuring crisp white lettering, the Dual Gas Pump Station is constructed from recycled structural plastic and creates the ideal backdrop for hours of imaginative play. The Gas Pump features two lifelike gas pumps, a broad counter, a roof with scalloped edges, and classic white trim. The panel can stand alone on the playground or schoolyard or be added to an existing play structure. The Dual Gas Pump is easy to install and can withstand years of everyday use.
