What's better than rock climbing or tunnel exploring? Combining the two. With our moving tunnels, kids will get lost in hours of collaborative and physical play and develop their balance and gross motor skills. Our tunnels rotate from the base, making them fun for the kids crawling through the tunnels and those riding atop the structures. Ideal for children ages five to twelve years old, the Moving Tunnels are a play accessory to grow with your kids and entertain up to at least six children at a time, maximizing your playground space.
