The Voyage play structure encourages kids to forge their own trails as they navigate through the series of adventurous activities. The Swoop Climber, Explorer Wall, and Twisted Trident activities all offer exciting twists on standard metal climbers. The NaviClimb and Playshell Climbers have wacky plastic shapes to climb. But the most unique feature of the Voyage playset is its three Suspended Playshells, which offer a truly unique climbing experience. Tying the whole structure together is the Curved PlayPod Traverse, which kids can cross to get from one side of the playset to the other without ever touching the ground.
