

Mountaineer

MSRP \$39,174.00

SALE \$34,278.00

Highlights:

- Offers a more vertical play experience
- Has a cozy reclining spot beneath
- Added height leaves space for a taller slide
- Reasonable height makes it a good place to work on climbing

Age Group: 5 to 12 years

The Mountaineer is a structure that is perfect for adventurous kids who love to climb. And no matter how they like to climb or how much of a challenge they want, there are great activities here for everyone. The two climbing panels on the corner of the structure offer a traditional rock wall with molded plastic grips, while the Climbing Wall offers a realistic climbing and rappelling experience with a rope. There is also a Loop Climber, Vertical Access Ladder, and Wacky Wood Climber which kids can use to reach the elevated top deck, which has a balcony and Bubble Panel for observation. The structure is available in beautiful wood, or durable metal.
