Fun is not hard to find on the Seeker Playset. The first thing that will likely draw kids' attention is the rotating Helix Spinner. This exciting feature lets children twirl in place by holding on tight to the wacky support bars and leaning in one direction. There is also a Twisted Trident and Swoop Climber which lead to the central activity of the structure: the Double Suspended Playshells. Kids can climb these unique shapes, or sit in them for the perfect vantage point to survey the playground. These same shapes are used in the Playshell Climber, which is an easy activity perfect for younger children.
