Head to the bus stop and cue up “Wheels on the Bus” with our vibrant, lifelike playground School Bus. The perfect compliment to your schoolyard, park, or playground, our large, carefully-crafted School Bus will facilitate hours of imaginative and dramatic play for children ages two to five. Lots of window cut-outs allow parents to comfortably supervise the action inside, and make for great photos. Dual spinning steering wheels encourage children to pretend they’re orchestrating the bus’s daily commute. Incredibly detailed black accents, like headlights, wheels, and front grates, add charm and elevate the structure’s aesthetic. The School Bus seats up to three to four children and can be installed both indoors and outdoors.
