- Promotes and encourages active socialization
- Exciting exercise area

Age Group: 2 to 12 years

Use Zone: 23' x 19' 6"

Kids will climb to new heights with the Expanded EC Playshell Climber. This play structure accommodates active climbing and traversing, as well as pretend and creative play. Children will be inspired by the unusual shapes creating towers, rock out-croppings or even small dinosaurs from the gently curved shapes. The modular “shells” can double as seating, making this climbing gym a great place for kids to rest and relax while they watch the action. With its metal overhangs that double as easily available handholds, the Expanded EC Playshell allows for a large variety of motion promoting gross motor skill development and balance practice. It can hold up to fifteen kids comfortably, making it a piece of equipment that promotes social play.
