You'll never "tire" of swinging and swaying with our unique and exciting Rock and Glide set. Perfect for children ages 6 - 23 months, the Rock and Glide tire set allows children to safely move and swing while promoting the use of recycled materials. The swing set has a use zone of 279" x 173" x 44" and a very low fall height, making it safe for young children at the beginning of their gross motor development. Each tire swing fits one toddler, and a sturdy frame and pinch-resistant chain are durable enough to hold up to years of everyday use.
