Kids will get into developmental “shape” with the bright and cheerful Shapes Sensory Box. This charming, unique, and educational tool invites kids to explore and discover fundamental shapes by engaging them in visual and tactile cues; after working with the Sensory Box, children will begin to recognize familiar shapes and colors, helping them to gain sensory recognition abilities. For example, kids will learn to distinguish between large triangles and small ones, increasing their critical thinking skills. The upper part of the box includes slotted handles that make repositioning quick and easy, and the Sensory Box can entertain up to three kids at a time, making it a wonderful tool to foster social development and cooperation. It measures 48” x 16” x 21” and is ideal for children ages 6-23 months.
