The Pioneer play structure has a massive expanse of fun activities for kids to explore. Its defining feature is the use of PlayPod Pedestals and Log Climber Clusters to make stepping stones. This way children can make a game of getting from one area to the next without touching the ground. They can also get around using the Handring Traverse. There are plenty of vertical climbers for reaching the upper decks, including a Playshell Spiral Climber, Mountain Climb, and Curly Climber. When they reach the highest deck, they can ride back down with their friends on the Triple Slide.
