The Hawthorne is a majestic and towering play structure from which children can survey the entire playground. Its highest deck is 90 inches up, with an impressive pointed roof, and an overlooking balcony with a steering wheel that kids can use to steer the structure through their imaginations. The boundary fences along each ledge are tall and sturdy to keep kids safe, but the Bubble Panel on the top-level ensures that even smaller children can still enjoy the view. To reach this pinnacle, kids have their choice of obstacles to climb, including the Rope Ladder, Climbing Wall, and the pair of Wacky Wood Climbers. This structure is available in wood or metal.
