---

Keep your back healthy and in alignment--in style--with the My Posture Chair. These chairs provide external postural and lumbar support, making them ideal for kids as they grow and develop; with support, children will maintain the natural curve of the spine. The chairs work to offset muscle fatigue, which can lead to slouching and other back health problems, and accommodate up to 100 pounds, making them ideal for schools and daycare centers. The My Posture Chairs coordinate well with our Baseline Tables. They also come in a gorgeous array of colors, in a variety of sizes to fit your specific needs. Our My Posture Chairs come individually or in a set of four to accommodate more children and create a whole activity nook. Our chairs come with a ten-year warranty, making them an excellent pick for teachers, parents, and caregivers.
