Age Group: 3 years and up

This adorably-shaped Sensory Table makes a wonderful addition to any classroom or daycare center. It can be configured in a row for individual play, or transformed into a circle for community play. And the Sensory Table is made from durable plastic and features a convenient lower shelf for supplies. Plus, the table's sturdy steel stands are adjustable from 18"-24" height, making it great for children of all ages and ability levels. Some light assembly is required, and it features a five-year warranty for guaranteed customer satisfaction. This Sensory Table will help children to develop their sensory skills, gross motor skills, and engage in social and physical play. Wonderful for both indoor and outdoor exploration, the table is lightweight and easy to move from one area to the next and creates a great space to facilitate social interaction. It comes in a diverse set of colors that you can choose from to personalize the table, including a 4-seat set where each seat is a different color. Contact a sales representative for more information.
