**Age Group:** Not Applicable

Naptime can be one of the hardest, and ironically one of the least relaxing, times for a parent or caregiver. Children will find any excuse they can not to go to sleep, which can lead to them being cranky from lack of rest. This Value Line White Cot Sheet helps encourage children to nap by making the cot soft and inviting. This sheet is easy to maintain, since it can simply be put into the washing machine and dryer. It is also easy to set up, thanks to its elastic loops on each corner, which can be used to quickly and firmly hold it in place. Because of this, and its affordable price tag, this is an excellent option for larger daycares with many children. It comes in both standard and toddler sizes, making it suitable for children of many different ages.
