- Makes rest cots look sleeker when put away
- **Only fits standard sized cots**

**Age Group:** 3 years and up

**Unit Size:** 54" x 22" x 5"

---

Utilize the unused space in your classroom by adding a SpaceLine Activity Table to the top of your cot stack. Kids will use it as a play surface for putting together puzzles, coloring, and playing with action figures. This Table Top will transform your rest time, organize your classroom, and economize limited space. It comes in a lovely blue-grey to match the corresponding SpaceLine Cots and requires no assembly, so you can use it immediately. Heavy-duty plastic means that this table top will hold up to years of everyday use. Customer satisfaction is guaranteed. This accessory is ideal for children toddler-age and older. A lip around the surface's edge ensures that toys will stay put as children get lost in hours of imaginative and exploratory play... until nap time, that is!
