- Plastic bar between the legs so children will stay put
- Tray attaches and detaches very easily

**Age Group:** 6 months to 3 years

**Capacity:** Accommodates up to 40 lbs.

This Angeles Feeding Chair is designed to help make the daunting task of getting toddlers or infants to eat a little bit easier for parents and caregivers. The chair holds them comfortably upright and in place, with an adjustable restraint harness for some additional support if needed. The seat has a height of 9 inches above the ground, making them a little bit easier to reach. The tray on the front of the seat helps to hold the child in place while they eat, and also has a raised ridge around its edge to prevent food or liquids from spilling over. Best of all, it can easily be detached and cleaned in the dishwasher. Up to four of these chairs can be stacked on top of each other, allowing larger families or daycares to save some space. It is built to hold children up to 40 pounds.
