Kids will adore this fun accessory that's a nod to Aesop's Fables, the Tortoise and Hare Ride-On Set. Designed to evoke images of a beloved children's story, these rockers give kids the ability to sit and push with their feet so that they can control the speed and stopping. A wonderful playset, this duo facilitates social and dramatic play for young children. Our Ride-Ons are constructed from durable one-piece molded plastic and feature a wide base design with a heavy duty axel and 6" diameter wheels. Ideal for indoor or outdoor use, the heavy-duty plastic will hold up to years of everyday use and make a perfect addition to your daycare or preschool. It accommodates children up to 40 lbs. This riding set is designed for toddlers and preschool-aged children and older, and it guarantees customer satisfaction.
