Kids will get a thrill pretending to be neighborhood heroes with this lifelike, lovely, and unique Fire Engine. Available with and without springs, the structure serves as both a stationary play structure for dramatic play, as well as a bouncy ride. The Fire Engine enables kids to access the platform from all sides, accommodating little firefighters of all ages and ability levels. The Fire Engine boasts two functional yellow steering wheels, authentic-looking wheels and ladders, and a wide platform to seat lots of kids at once. Made from commercial-grade HDPE plastic, the Fire Engine is weatherproof and will hold up to years of heavy wear and tear. The design is open-concept, inviting lots of social interaction and imaginative play, and it makes a great addition to any park, daycare center, and school playground. Just add a dalmatian stuffed animal and children will be ready to put out fires and save kittens from nearby trees!
