**Use Zone:** 14' 5" x 14' 2"

Kids will bring up the rear of the train in imaginative style with the Caboose Play Structure. This Caboose playset acts as a literal and figurative vehicle for children to explore, imagine, and socialize, pretending to be passengers, conductors, and engineers. The Caboose features a lifelike sign, wheels, and a bright red and yellow frame. The structure comes with complimentary stakes for permanent in-ground installation and the Caboose can be purchased individually or in a group to help facilitate dramatic play for toddlers and children in early elementary school. The Caboose makes a great addition to any school playground, daycare center, and museum green space, and it's ideal for children who have an interest in transportation and imaginative play. The Caboose is made of sturdy weatherproof plastic and will hold up to years of everyday use.
