Unit Size: 24" x 16" x 13"

Children may be too young to actually drink coffee, but that doesn't mean your classroom or learning space can't be improved with this Coffee Table. It is a perfect compliment to our Sofas and cushioned seats, which can be set up around it. This creates a relaxed work space where children can socialize and work together on group projects and activities. When the work is done, the Coffee Table is also a perfect space for playing board games, card games, or other activities together. By placing all of the children seated around it close together, it encourages socialization and the formation of new friendships. The durable UV on all of the birch wood panels are resistant to scratches as well as stains, and are easy to clean if children accidentally spill or color on them. Its lightweight structure and versatile design allow it to be moved around and used however and wherever it is most helpful.
