- Comes with easy-grip easel clips

Age Group: 2 to 5 years

Children can let their creativity run wild with this 2-Station Art Center. This set of two back-to-back easels is the perfect way to get kids painting. The easels are mounted on top of a set of shelves which can be used to hold paints, brushes, and other materials that aren't being used. Alternatively, the shelves can be used as a drying rack for newly made paintings. The easels also have a convenient tray for holding the materials which the artist is using at the time, keeping all of the different colors and brush sizes close at hand. The four easy-grip clips at the top of the easels hold the paper in place so that it does not move around while being painted on. Since the easels face away from each other, children can do different partnered activities, like making portraits of each other, or painting something unique based on a description and then comparing their results.
