- Fun song book provided
- Mallets are attached to the structure

Age Group: 2 to 12 years and Adults

The Serenade is perhaps the best outdoor instrument available for teaching kids of any age how to play music. It has its own built-in songbook which comes with 6 songs that are both easy to play and easy to recognize, including Mary Had a Little Lamb, Happy Birthday, Twinkle Twinkle Little Star, Bingo, Rock a Bye Baby, and Row, Row, Row Your Boat. Not only does this carefully tuned instrument sound beautiful, it's rainbow of differently-colored keys make it look beautiful as well. These colors are not just for appearance though, as each color corresponds to a different note in the sheet music, making it easier than ever for children to actually play songs, and feel the confidence and creative benefits that come with that. It can be installed using in-ground or surface mounting, and is made from durable and weatherproof materials that will stay fresh and tuned even after staying outside year-round.
