**Age Group:** 1 to 3 years

**Assembled Dimensions:** 75" x 24" x 46"

Give kids a hideaway all of their own to explore, imagine, and crawl! The Toddler Loft Set is a whimsical play structure that creates a wooden backdrop for years of adorable memories. The wood aesthetic is timeless, complementing any décor, whether that be in your playroom or a daycare classroom, and kids will love climbing the non-slip stairs to reach the cubbyhole tower to survey the scenery or scoot down the carpeted ramp. A developmental paradise, the Toddler Loft also features a crawl-through, large tunnel underneath the main structure, where children can practice their gross motor skills. The steps and ramp attach easily, while the tower's clear plastic windows create an observatory deck and give parents and caregivers peace of mind. The loft is rendered in sturdy birch-veneer panels and features a beautiful UV finish that's easy to clean and scratch resistant.
