

Percussion Play Pentatonic Symphony

MSRP \$4,190.00

SALE \$3,771.00

Highlights:

- Sixteen chimes in the set
- Pentatonic scale allows anyone to play a nice melody
- Interesting visual look with the quickly descending sizes of chimes
- Choose one of our four mounting options to make it work for your space

Age Group: 2 to 12 years and Adults

The striking Pentatonic Symphony creates rich, beautiful, harmonic tones that will enchant and engage children of all ability levels and ages. Featuring sixteen brushed-metal, aluminum chimes, hand-tuned to the highest quality, this wonderful instrument will elevate outdoor classrooms and discovery spaces, instilling a love of music in students, young and old. This is a perfect tool to promote improvisation, creativity, and even has science applications when studying the physical properties of sound. And because of the sprawling, sleek design, it can comfortably accommodate three friends or classmates at once as they create unique harmonies. Choose between a variety of mounts: in-ground, surface or wall installation. Or, opt for “notes only” and ditch the backboard for a universal fixing bracket on each note. Due to the pentatonic scale, there are no “wrong notes,” so even beginners can compose with confidence.
