ASTM F1487-17

CPSC PUB #325

What's a playground without a slide? The answer is simple: not all that much of a playground! Add this 4-foot Double Free Standing Slide to take your playground from lame to exciting. Modeled from rotationally molded plastic which works prevents the classic slide burn that more traditional steel slides might cause. Children will be delighted by the chance to race their friends, large or small. Its four-foot height it is a great size for younger children, being tall enough to provide a fun experience while remaining approachable. Children will eagerly line up on the slip resistant stairs for their turn to slip down the slide. Choose any of our race-ready colors of rotationally plastic and powder coat painted posts to create a one of a kind speed-machine to get children excited for their ride before even setting foot on the playground.
