ASTM F1487-17

CPSC PUB #325

ADA Compliant

Children will spring into the Happy Hollow during play time. The Happy Hollow is designed with the utmost safety and learning in mind with a sprinkle of challenge. Young learners from 6 months and up to 23 months will be stimulated by the number of sensory activities around them. Ferah the Firefly will light up their eyes with excitement as the brightly colored beads dance as her body spins. Marty the Sensory Mushroom will delight them with a variety of textures and patterns in each of his spots. Bella the Butterfly offers a chance to work on their fine motor skills with each of the easy to grip pegs that can be slid through the intricate pattern on her wings. Carl the Caterpillar holds a set of color coordinated rings that children can grip and move to the sound of gentle clanks as the rings hit one another. Preschool aged children will continue to be fascinated by the clicking of Lily Lady Bug as she turns. The slopped leaves that make the Leaf Slides that they can enjoy as toddlers will continue to bring them joy as they grow. No matter their age, the Mailbox with Chimes makes a cheerful metallic sound as the levers are pulled and a child's joy will be unmatched when they discover they can slide items through the mail slot to a waiting friend. The Happy Hollow will bring smiles to the faces of all those that play its shade.
