

Round 2-Can Trash and Recycling Center

MSRP \$1,091.00

SALE \$960.00

Highlights:

- A versatile and dual-sided receptacle
- Encourage recycling in your local community
- Accommodates 32-gallon receptacle and liners
- Add a modern and unique piece to elevate the area

Kill two birds with one stone with the Round 2-Can Trash and Recycling Center which features two slots that can accommodate a 32-gallon receptacle. This versatile trash receptacle can be used for both waste disposal and recycling of paper, glass, cans and more - the choice is yours. The receptacle can also be engraved to label which items go in which bin. This makes it great for schools and learning centers who want to practice recycling and sustainability. For businesses who want to decrease waste on the ground this can make a positive change in their community. The dual-receptacle is made of 1-inch x 4-inch Resinwood slats which gives it a modern and clean look that won't be ignored. Pair it with liners to complete your purchase. If you want to see this in more colors then please talk to one of our AAA State of Play Representatives as colors come as available.
