Age Group: 2 to 5 years

Unit Size: 17' x 16'

Looking like an animated automobile that's just zoomed out of a cartoon and into reality, the R-Town Rumblin' Racer is an eye catching playground structure that's sure to get kids excited. It's handsomely detailed with fine illustrative touches like a number decal on the doors and a labeled gas tank. Children can enter the vehicle through the clear passage at the back. This portion, along with the open roof area, is widely spaced and offers clear visibility into the play car so adults can watch kids and assure everyone is playing safely. Set in the dashboard in front of a pair of platform seats are two steering wheels! This aspect ensures no fighting will take place over which child gets to drive the play car. The smaller footprint of this dramatic play unit opens up placement possibilities. It works well as a solo installation or alongside other make believe cars. It comes in two versions: as a stable post mounted car or as a bouncing spring mounted car.
